

John was given a vision of God's throne surrounded by a rainbow. Imagine how wonderful it would be to worship our Creator around His throne (Revelation 4:3,11)!

YOU WILL NEED:

- Large Heat-Safe Container
- Pipe Cleaners: Red, Orange, Yellow, Green, Blue, Dark Blue, Purple
- 5-7 White Pipe Cleaners
- 2 Wooden Skewers
- Measuring Cup
- Tablespoon
- Bowl
- Scissors
- Thread
- Ruler
- Hot Water
- Borax

DIRECTIONS:

1. Arrange pipe cleaners on a flat surface according to the colors of the rainbow: red, orange, yellow, green, blue, dark blue (indigo), and purple (violet). Tie them together loosely in the middle.

5. Curl several white pipe cleaners into rings, leaving a tail on each one.

10. Pour 9 table-
spoons of borax into a bowl for every 3 cups of water you used.

2. Bend pipe cleaners into an arch shape. Using thread, tie them loosely on the right and left sides. Trim all the threads except the one in the center.

6. Attach the white rings to the bottom of the rainbow using the tail end. These will become the clouds for the rainbow.

9. Take the rainbow out of the container. Pour the measured Borax into the container and mix well with a wooden skewer. Suspend the rainbow in the mixture and leave it there.

3. Take two white pipe cleaners and bend them in half. Take one pipe cleaner, and starting at the fold, twist it around each color at the end of the rainbow, one at a time. Repeat with the other side.

7. Take the heat-safe container and make sure it is large enough for your rainbow to fit inside. Tie the rainbow to a skewer with thread. Adjust the length of the thread so that the rainbow hangs 1-2" above the bottom.

11. After at least 24 hours, carefully take the rainbow out of the mixture. Rinse gently with water and let dry.

4. Trim off the tips of the multicolored pipe cleaners, leaving 1/4". Fold the ends over. Fasten the white pipe cleaners to each other. Curl the loose ends of the white pipe cleaners into rings.

8. After asking an adult for help, pour hot water into the container, keeping track of the number of cups you use. Continue adding water until it is 1-2" above the rainbow.

12. Hang the rainbow in a suitable place to admire its beauty and be reminded of our loving Creator!
