

GOD'S LIKENESS

God created many beautiful things, and we are special because we're created in His image (Genesis 1:27). Use light to trace your silhouette and reflect on the incredible way God crafted every piece of us.

YOU WILL NEED:

- Sheet of White Paper
- Black, White, Yellow Paint
- Fine Paintbrush
- Paraffin Votive Candle
- Glass Container
- Marker
- Sponge
- School Glue
- Lighter

DIRECTIONS:

1. Wash the glass container with soap and water. Dry well with paper towel.

5. Mix school glue and black paint in a ratio of 1:1. Paint inside the outlines on the jar. Let dry. If the paint doesn't cover well, apply one or two more coats.

2. Draw silhouettes of some small figures. (An example can be seen in the attachment.)

6. Apply one coat of white and yellow paint to the inside of the glass container with a sponge. Let it dry.

3. Insert the silhouettes you drew into the glass container.

7. Place the small paraffin candle inside the glass container. The lamp is ready, so light your candle and let your light shine!

4. Trace around the silhouettes on the outside of the glass with a marker.
