

Holding FAST

Just as Daniel held fast to the Lord and trusted in Him, we too, can have peace in knowing that God will take care of us (Psalm 56:3-4).

YOU WILL NEED:

- 7"-10" Round Wood Cut at least ½" thick**
- Industrial Strength Glue
- 4 Wooden Beads (½"-1")
- Mod Podge
- Sandpaper
- Markers
- Pencil
- Scissors
- Paper
- Paint
- Brushes

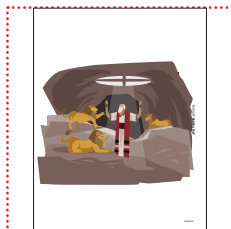

DIRECTIONS:

1. Sand the top surface of the wood with sandpaper. Remove any dust from the surface.

2. Following the instructions for the industrial strength glue, glue the wooden beads to the bottom surface.

3. Draw your favorite Bible scene on a piece of paper, or print out the example in the template*.

4. Trim the picture to fit the wood cut, leaving space around it for writing.

5. Write this verse around the edge: **"Whenever I am afraid, I will trust in You." Psalm 56:3**

6. Using Mod Podge, glue the picture to the middle of the wood. Now coat the entire top surface with Mod Podge and let dry. Add another 1-2 layers of Mod Podge, letting it dry between each coat.

7. Paint the side of the wood with 2-3 layers of Mod Podge, letting it dry between each layer.

8. If you choose, you can add a layer of varnish to further protect the surface. The hot plate or trivet is ready to use.

9. You can use your trivet to protect your table from hot dishes and decorate your kitchen. To clean your trivet, wipe with a damp cloth.

** If you don't have a piece of cut wood, you can use any wooden or hard surface at least ½" thick, such as a piece of board, a cutting board.
