

# MEASURING PROGRESS

Even if our progress is slow, Jesus will help us to measure up (Titus 2:11-12).  
We can be a witness of Christ and His love.

## YOU WILL NEED:

- Super Jumbo Craft Stick
- 2 Small Googly Eyes
- Black Cardstock
- White Cardstock
- Poster Board
- Black Gel Pen
- Red Gel Pen
- Scissors
- Glue Stick
- Pencil
- Ruler

## DIRECTIONS:

**1.** Make marks 1" apart on the super jumbo craft stick using a black gel pen.

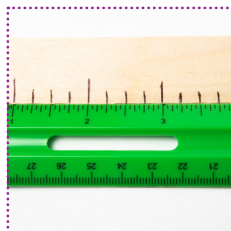

**2.** Mark off the 1/4" marks on the craft stick between 1" marks with the gel pen.

**5.** On the back of the craft stick, you can make centimeter and millimeter marks.

**9.** Glue the piece of poster board to the back of the panda.

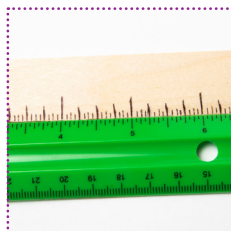

**3.** Add the 1/16" marks to the craft stick between 1/4" marks.

**6.** Print out the template in the attachment. Cut out the panda pieces from the black and white cardstock as indicated.

**10.** Glue the panda's black back over the poster board.

**4.** Write the numbers at the 1" marks. Go over the numbers and marks with red gel pen.

**7.** Cut out the dome-shaped piece from poster board.

**11.** Glue the googly eyes on. Draw the muzzle for the panda using black gel pen and shape the face. Slide the panda onto the ruler. The distance between the front and back legs of the panda should be 1".

**8.** Glue the white head and tail parts to both sides of the panda's black body. Glue the belly on. Glue the black eye patches to the panda's face.

**12.** The distance between the front and back legs on the centimeter side of the ruler should be 2 1/2 cm.
