

GROWING IN FAITH

Faith is like a little seed; if planted, it will grow.
So, be planted in Jesus as it says in Psalms 92:13.

YOU WILL NEED:

- Plastic Container
- Plastic Lid
- Small Bowl
- School Glue
- Construction Paper
- White Paper
- Scissors
- Brush
- Seeds
- Soil
- Awl

DIRECTIONS:

1. Tear 1x1" pieces of white paper. Glue the pieces of paper onto the surface of the container to cover any text or pictures.

5. Make a few holes in the bottom of the container using the awl. Turn the container upright and place the lid under it.

2. Cut more pieces of paper in complementary colors.

6. Fill the container with moistened soil. Plant the seeds, following the instructions on the packet. Place the container on a sunny windowsill.

3. Glue the colored pieces onto the surface of the container, leaving a small border between the pieces.

7. In a few days you will see the first sprouts. Don't forget to water the soil to keep it moist.

4. Cover the entire surface of the container with a layer of glue. Let it dry. (Don't worry, the glue will dry clear.) Repeat for several more layers.

8. As you care for the sprouts, you can watch them grow into plants that bring delight to you every day.

Adult assistance is suggested.
