

Earthly GLOBE

God's love is for everyone. Will you live for Him?

YOU WILL NEED:

- Newspaper
- Paints
- Brushes
- School Glue
- Water
- Cardboard
- Ruler
- Pencil
- Round Balloon
- Colored Paper
- Small Bowl
- Red Marker
- Masking Tape
- Wooden Skewer
- Lid from Shoe Box
- Hot Glue Gun

DIRECTIONS:

1. Cut squares of newspaper $1\frac{1}{2} \times 1\frac{1}{2}$ inch. Inflate the balloon to $8\frac{1}{2}$ inch in diameter.

2. Glue a layer of newspaper squares, covering the balloon completely. Thin the glue with a little water and paint the entire surface with the glue. Let dry and repeat 5 or 6 times.

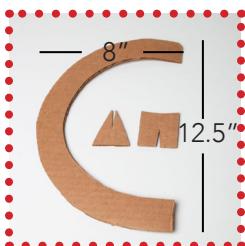

3. Paint the ball white and allow to dry. Pierce completely through the ball with the skewer at the North and South poles. Draw the outline of the continents on the ball.

4. Paint the continents and the oceans.

5. Wind tape around the bottom end of the skewer to hold the globe in place.

6. Cut out a semicircular strip of cardboard 8 inches tall, $12\frac{1}{2}$ inch long and $1\frac{1}{2}$ inch wide. Also cut out two foot pieces according to the pattern in the picture, complete with notches to fit them together.

7. Put tape over the edges of the cardboard semicircle for a smooth finish. Paint it or cover it with colored paper. Write a message on it.

8. Mount the semicircular piece to the foot, using hot glue.

9. Paint the box cover or cover it with colored paper.

10. Glue both ends of the skewer to the semicircular support, in such a way that the globe can spin freely. Glue the foot to the shoe box lid. The globe is ready!

Adult assistance is suggested.
