

In spite of what may be going on around us, we can trust God and shine brightly for Him. Through our example, others will be led to give their hearts to Jesus (Daniel 12:3).

YOU WILL NEED:

- Glow-in-the-dark Paint
- Mod Podge or School Glue
- White Liquid Chalk Marker
- Black Cardstock
- Glitter Paper or Stars
- Glitter
- Pencil
- Scissors
- Brush

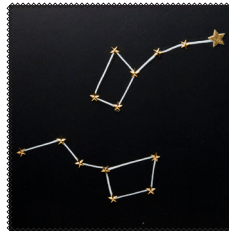

DIRECTIONS:

1. Cut out a sheet of black cardstock to the size you need for your poster.

2. Use the white marker to draw your favorite constellation in the middle of the poster.

3. Glue small stars in their correct positions within the constellation. The stars can be ready-made or cut out from glitter paper.

4. Using a white marker, write your name using only straight lines so that it looks like a constellation.

5. Using a white marker, write any other names you would like, using straight lines in the same way.

6. Place large white dots at the points of the letters in the names.

7. Glue stars onto the lines in your constellation.

8. Glue glitter stars all over the poster.

9. Sprinkle drops of glue on the poster in the form of a path like the Milky Way. Sprinkle glitter over the glue. Shake the poster gently so that the glitter is evenly distributed. Remove any excess glitter. Let dry.

10. Cover the stars with paint to make them glow at night. Frame the poster if you like. Let your character be a good example to others and your name shine brightly for God.
